**Display Week 2015 Special Topic:
Imaging Technologies and Applications
Jun 2-4, 2015
San Jose Convention Center, San Jose, CA
Chair: Achin Bhowmik, Intel (achintya.k.bhowmik@intel.com)**

The Society for Information Display has planned a focused one-day special topic session on Imaging Technologies and Applications during the annual Display Week 2015, Jun 2-4, in the heart of Silicon Valley at the San Jose Convention Center, San Jose, California. This event will bring together scientists, engineers, business professionals, market analysts, and industry leaders involved in the areas related to imaging technologies, products, applications, advanced developments, and emerging trends.

Topics will include:

- Image Sensors and Acquisition Systems
- Mobile Imaging, Digital Photography and Video Capture
- Computational Imaging, Image and Video Processing
- RGB-D Imaging: 3D/Depth Sensing Technologies and Applications
- Computer Vision and Pattern Recognition
- Robotics Vision and Intelligent Systems
- Natural Human Interfaces Based on Imaging Technologies
- Augmented and Virtual Reality with Real-Time Imaging
- 3D Object, Human, and Scene Capture, Reconstruction, and Recognition
- Biometrics with Imaging Technologies
- Advanced Displays with Integrated Imaging Technologies
- Emerging Imaging Systems and Applications
